

## THE WORLD OVER

ALBERTA PAYS ONLY INTEREST

EDMONTON—Turned down by the Bank of Canada and the Dominion government on its application for a \$1,650,000 loan to meet a bond maturity on Tuesday, the province deflated its payment, but paid the interest.

The bank, in rejecting the application, stated its policy was to make advances only to general rehabilitation of provincial finances.

### GERMAN SHIP BOMBED BY SPANISH LOYALIST PLATES

BERLIN—All shore leaves in the German navy were cancelled, it was learned early Monday, following a cabinet decision "to take measures" being of the bombing of the pocket battleship Deutschland by Spanish airships.

Twenty-three aboard the vessel died Saturday when it was bombed by official German charges were Red Spanish plates.

For a warship flying the Swastika flag was sailing with steam up for further instructions.

Orders cancelling all leaves were issued after the news of the Deutschland bombing off the Balinese Island of Batu had been relayed from ship to ship around the world.

### \$10,000,000 LOSS TO PROVINCE IN TOURIST TRAFFIC ALONE

Because this province did not have provincial highways, it lost \$10,000,000 worth of tourist business in 1935, the last year for which official figures are available.

More than the whole population of the dominion, an army of 15,000 tourists, all came to the province to visit Canada on 24-hour notice.

It has been estimated that \$8,000,000 will sweep, when the hour strikes, into Ontario. Some \$9,000 will descend on the southwestern section of British Columbia.

Alberta will be attacked by some 10,000. But the invasion would be stopped immediately by a barrage of dust before this province had been penetrated more than 50 miles. Some 15,000 units of the motorcade will have been bogged down in mud holes by noon.

The dust barrage and the invasion of the Alberta sector, it is estimated, will be so complete that out of the pockets of Alberta farmers, because the defeated army thus defeated, retired to other playgrounds.

Furthermore, the invaders resolved never to leave the province until the province has hard surfaces.

In 1935, an army of about 15,000,000 Americans in high powered cars invaded Canada, did no damage to the rights of the natives of the country merely took in the sights and spent \$11,000,000 for the services before going back to their homes to mind their own business.

The United Church Ladies Aid entertained the Y.P.S. in the church on Tuesday evening.

### EXTENSION OF COAL MARKETS ADVOCATED BY MR. O. A. BOTTER

Meeting of Interested Citizens Held in Carbon Friday Night

Mr. O. A. Botter of Blairmore, Alberta, addressed a joint conference of Carbon business men, professionals, coal operators, miners and representatives of the United Mine Workers in the Municipal office, Carbon, on Friday evening, May 28, in interests of extended markets for Alberta coal.

An exhibition baseball game between the Carbon and Swalwell baseball teams was played at the local band shell on Thursday night, June 1, last week and the final score was 14-8.

Swalwell boys got away to a good start on the locals and at the end of the sixth the score was 8-8 in their favor. Carbon boys then came to life and ran out ten runs in the next three frames to win the game 14-8.

Lineups were as follows:

Swalwell—Empey, Hunter, T. Beirri, McNeil, A. Empey, Fytton, Wolf, Gore, and C. Begir.

Carbon—Rogers, Trenpanier, Mathers, Nash, Woods, Ramsay, Pimmon, Kapunak, Fuller.

### CARBON BASEBALL TEAM WINS FROM SWALWELL

An exhibition baseball game between the Carbon and Swalwell baseball teams was played at the local band shell on Thursday night, June 1, last week and the final score was 14-8.

Swalwell boys got away to a good start on the locals and at the end of the sixth the score was 8-8 in their favor. Carbon boys then came to life and ran out ten runs in the next three frames to win the game 14-8.

Lineups were as follows:

Swalwell—Empey, Hunter, T. Beirri, McNeil, A. Empey, Fytton, Wolf, Gore, and C. Begir.

Carbon—Rogers, Trenpanier, Mathers, Nash, Woods, Ramsay, Pimmon, Kapunak, Fuller.

It is expected that four teams will enter the league, Carbon, Carbon Tuxis, Grand Tuxis and Hesketh.

**CARBON LAWN TENNIS CLUB PLAYERS WIN IN MATCH FROM TROCHU**

Take Hosts Into Camp by Winning Six Events to Three

The Carbon Lawn Tennis Club visited Trochu on May 30th and defeated the Trochu Lawn Tennis Club six games to three. The result was rather unexpected as there was a close match between these clubs at Carbon on May 12th resulting in a tie. The following are the results and scores:

Men's Doubles—E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, Cyril Poxon, Carbon defeated L. Slim, Trochu, 6-3, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

Men's Doubles—C. Poxon and C.H. Smith, Carbon, defeated E.M. Borgard, Trenpanier, Mathers, Nash, Carbon, 6-4, 6-2.

## Which no roller will deny!

A "jolly good" smoke indeed, the cigarette you roll with fragrant, friendly Ogden's Fine Cut. The more particular you are about your cigarette tobacco the more will feel like giving a "hip hip hooray" for Ogden's—and a "hige" when you use the best papers "Chantecler" or "Vogue". And, by the way, there's a bigger package of Ogden's for 15¢ now.

P.S.—Your Pipe Knows Ogden's Cut Plug.

# OGDEN'S FINE CUT

## National Radio Program

A canvass of radio fans throughout the prairie provinces, if such a survey could be made reasonably representative of very diverse views, would undoubtedly reveal a mixed reception for the Canadian Broadcasting Corporation's plan of governors of that institution, following its only meeting in Ottawa on October 1st.

Some of the plans announced at the close of the session have undoubtedly caused disappointment. On the other hand some of them will meet with majority approval. There may be some who will see no good in anything that the Corporation proposes to do and it is quite possible that a few others are equally satisfied with the announced program in toto and with every element of complete approval.

For the average "listener-in," who is not too discriminating, and that probably covers the majority, however, the objectives of the three-year program which includes construction of four new high-powered broadcasting stations in the prairies in the next year, and new practices and in the meantime, as well as other improvements, have something of merit, though some phases of the plans are disappointing.

It is disappointing, for instance, to find that nothing is likely to be done towards the establishment of a station in the west for at least two years while Ontario and Quebec stations are to be given preference to a number of good high-powered stations on both sides of the international boundary carrying excellent programs, are to be served immediately with two such stations, as quickly as they can be built.

In the western provinces there is a general desire among stations

and among listeners that all be given programs or only sparsely enough. Until the proposed new national high-powered western station is constructed they will have to continue to go without a service or have to settle with a doubtful one for gratification that during the past year or two there has been a decided but quite perceptible improvement in the quantity of the programs broadcast on the national chain, whether due to the changes in administration or for some other reason, but this improvement only serves to accentuate the disappointment in the delay in bringing these programs to the attention of everyone on the prairie able to own a receiving set.

In view of the recent decision of the C.B.C. to seek the Minister's approval for the announcement of the intention to extend the C.B.C. services from its present six hours schedule to 12 and perhaps 16 hours a day, always provided, of course, that wave band agreements which may be made, will not conflict with the owner of the receiving set to one source for his entertainment and information.

As already stated, the quality of the programs broadcast over the national chain has materially improved, but that does not mean there is no room for further improvement. There is yet a substantial part to be bridged before these programs can be classified with some of the best to be heard in the U.S.A. For this reason, and also because of the intention to arrange for more exchanges of programs, we will generally welcome in the Canadian west. For the same reason, the average western radio fan still desires not only to retain what selective right conflicting radio bands permit him, but is anxious that interference should be further reduced. The western radio fan is still one of the greatest appreciators of the listeners in the prairies.

Possibly when the C.B.C. can offer programs of its own to match the best that is produced on the other side of the international boundaries, programs coming from receiving stations not concerned with international or metropolitan other stations. If anyone who can afford to pay out of revenue stands in the way the Canadian Corporation might well consider the advisability of embarking in the commercial field, at least in an experimental way and with safeguards against abuse by advertising media.

One of the proposals of the C.B.C. which should be received with approval on all hands is the announced intention to set up a school for radio announcers.

While there has been a marked improvement in announcing on both sides of the international boundary in the past two or three years, resulting in the disappearance of some of the worst crudities to which listeners were subjected in the early days of radio, there is still much to be done. In this field also, scope for betterment. A school for announcers properly conducted should do much to iron out some remaining objectionable features indulged in by some announcers on occasion.

By and large, the Canadian Broadcasting Corporation shows that it has some ideas, and that is something for which appreciation should be expressed.

An educated syrup pot has been invented by Clyde Marion Ogden, King, M. W. While the old fashioned way of making the syrup of the older day and night, most of the knights wear their silver badge of the order during their sleep.

"Once a road is laid down properly," says a building expert, "it shouldn't be taken up in a hurry." It isn't; the authorities spend months and months on the job.

The unbroken card in a pack of cards is the eight of spades according to superstition. Napoleon Bonaparte ascribed his defeats to its influence.

## Losses Were Lighter

### Fright Car Robbers Not As Successful As Last Year

Raid by swindlers on U.S. passenger train did not long survive their most eminent practitioners, Jessie James. Much different in technique and the raids still made on freight trains.

Freight car robbers work often on moving trains, choose sparsely settled country where a highway runs beside the tracks. Swinging an iron bar or a gun on rope leaders, they break the seals on the doors, climb in and toss out everything they can lay their hands on. Confederates in trucks pick up the catch.

The Association of American Railroads reported that claims resulting from freight car thefts in the U.S. and Canada totalled \$1,000,000 in 1888 and for any year on record biggest losses were in coal and coke, stolen not only by organized gang but by individuals who needed fuel.

In the western provinces there is a general desire among stations

and among listeners that all be given programs or only sparsely enough. Until the proposed new national high-powered western station is constructed they will have to continue to go without a service or have to settle with a doubtful one for gratification that during the past year or two

there has been a decided but quite perceptible improvement in the quantity of the programs broadcast on the national chain, whether due to the changes in administration or for some other reason, but this improvement only serves to accentuate the disappointment in the delay in bringing these programs to the attention of everyone on the prairie able to own a receiving set.

In view of the recent decision of the C.B.C. to seek the Minister's approval for the announcement of the intention to extend the C.B.C. services from its present six hours schedule to 12 and perhaps 16 hours a day, always provided, of course, that wave band agreements which may be made, will not conflict with the owner of the receiving set to one source for his entertainment and information.

As already stated, the quality of the programs broadcast over the national chain has materially improved, but that does not mean there is no room for further improvement. There is yet a substantial part to be bridged before these programs can be classified with some of the best to be heard in the U.S.A. For this reason, and also because of the intention to arrange for more exchanges of programs, we will generally welcome in the Canadian west. For the same reason, the average western radio fan still desires not only to retain what selective right conflicting radio bands permit him, but is anxious that interference should be further reduced. The western radio fan is still one of the greatest appreciators of the listeners in the prairies.

Possibly when the C.B.C. can offer programs of its own to match the best that is produced on the other side of the international boundaries, programs coming from receiving stations not concerned with international or metropolitan other stations. If anyone who can afford to pay out of revenue stands in the way the Canadian Corporation might well consider the advisability of embarking in the commercial field, at least in an experimental way and with safeguards against abuse by advertising media.

One of the proposals of the C.B.C. which should be received with approval on all hands is the announced intention to set up a school for radio announcers.

While there has been a marked improvement in announcing on both sides of the international boundary in the past two or three years, resulting in the disappearance of some of the worst crudities to which listeners were subjected in the early days of radio, there is still much to be done. In this field also, scope for betterment. A school for announcers properly conducted should do much to iron out some remaining objectionable features indulged in by some announcers on occasion.

By and large, the Canadian Broadcasting Corporation shows that it has some ideas, and that is something for which appreciation should be expressed.

Upon being created a Knight of the Order of Garter, King Edward VII, King of England, was asked if he had any idea of the order day and night. Most of the knights wear their silver badge of the order during their sleep.

"Once a road is laid down properly," says a building expert, "it shouldn't be taken up in a hurry."

It isn't; the authorities spend months and months on the job.

The unbroken card in a pack of cards is the eight of spades according to superstition. Napoleon Bonaparte ascribed his defeats to its influence.

An educated syrup pot has been invented by Clyde Marion Ogden, King, M. W. While the old fashioned way of making the syrup of the older day and night, most of the knights wear their silver badge of the order during their sleep.

"Once a road is laid down properly," says a building expert, "it shouldn't be taken up in a hurry."

## BOY SCOUT NEWS NOTES

BY THE S. M.

I would like to again thank everyone who tell stories? Certainly you do! We use stories to help our own guilt and suspicion upon perfectly innocent people. We set up fictitious reasons for not believing them. John is late for supper. Fancy the several possibilities. John's wife no longer loves him. He is late. So his imagination prevents her from being sensible. Such story building accounts for the imaginative, fictitious and fallacious stories that every one can easily find. Stories are simple because people are innocent of the causes attributed to them. Their sin is simply built up in the mind of those who think themselves astounded.

Story making also indulged in by the children or adults. Try this! When you can meet an amateur call your opponent a name above, which is emotional and prejudiced set up his development. If you do not like the story tell the other side of the social class, call him a Red or a Black or a Radical. Thereby you may be able to cast suspicion upon his truth or sincerity and save yourself from examining your defenses. But it leaves you with a bad taste.

Let me warn you that bad predictions of distaste are suspicious. Most human is it not to be red hot after sins as yet undiscovered in our own basements? This art of projection takes the form of mockery, fear, hate, and then defends its own insincerity by forms of lying, that is, telling stories.

Here is a man who is shy. He believes that she born sense of inadequacy in the presence of his close friends. Actually they are too busy with their own affairs to care about what is so important to the shy one. He is afraid to go to her because by a projection or fiction. He is afraid of what other folk are not thinking.

Again it is known that parents project their frustrated desires onto their offspring. Mama wanted to be an opera singer. Now for south she pushed her would-be dancer to desperate efforts to attain what is physically impossible. That her daughter can sing is known by the neighbors to be a fiction.

Francis Bacon, writing in the 16th century, asserted that all men everywhere have certain dreams of their own "which reflects and discloses the light of nature." All of which is to say that we will be happier when we are more honest and straightforward with each other. There will be less fiction of the meaner sort.
